

weight of clay.

16. A composition according to claim 15 which is in powder form.

17. A composition according to claim 16 which is in granulated form and has bulk density >600g/l.

18. A composition according to claim 15 which is in tablet form.

19. A composition according to claim 18 wherein the tablet comprises one or more discrete first regions and one or more discrete second regions, and the clay is more highly concentrated in each first region than in each second region.

20. A composition according to claim 19 wherein the concentration of clay in each first region is 2 to 5 times the concentration in second region, and the clay concentration in each first region is at least 10% by weight of each first region.

Conclusion

Support for these amendments is found in the claims as originally filed. These amendments are entered to bring the claims into conformance with 37 CFR §1.75; no new matter is added.

Respectfully submitted,

By

M. Dressman
